Download the EzWIC App

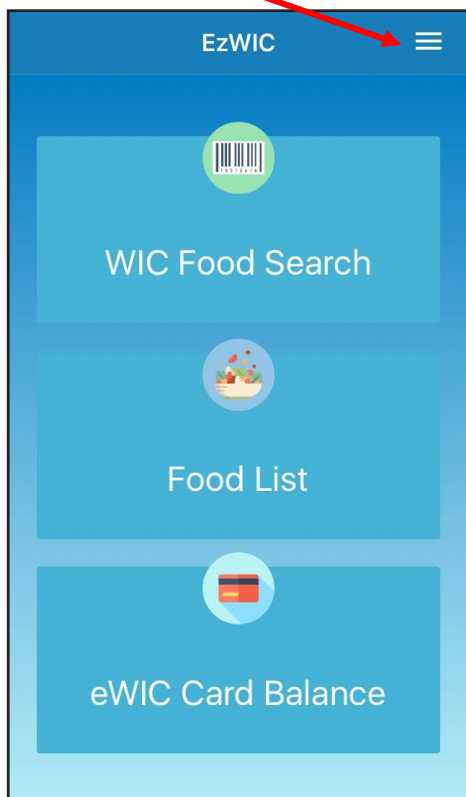

To download the free app, go to the App Store or Google Play and search for EzWIC.

The Home Screen

The menu icon will allow you to access the “Manage Cards,” “About,” and “Contact Us” screens.

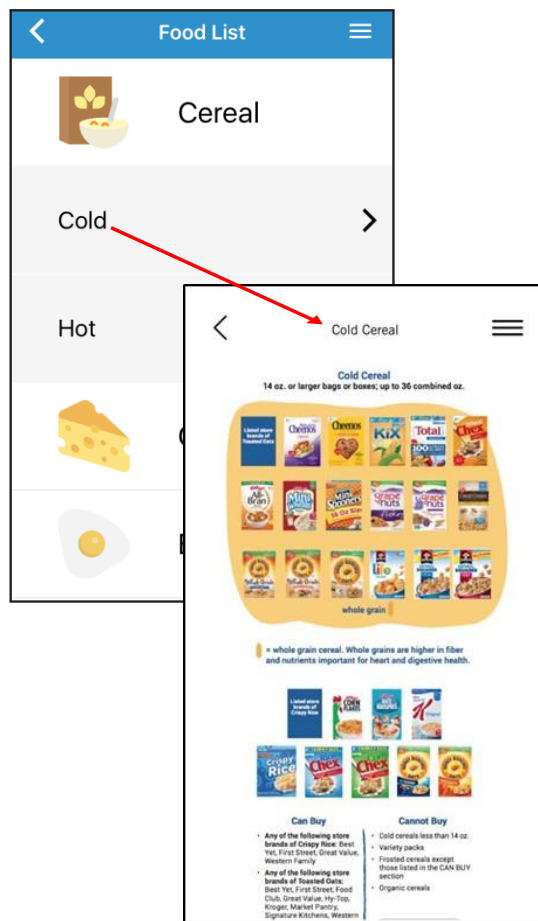

Food List

When choosing “Food List,” you will see a list of food options.

In this example, we chose Cold Cereal. The app shows information about WIC approved cold cereals.

WIC Food Search

When choosing “WIC Food Search,” the app will use your phone’s camera to scan a barcode to see if the food is WIC approved. You can also enter a barcode number by choosing “Enter Manually.”

NOTE: For fresh fruits and vegetables, you will need to type in the PLU (number) found on the sticker or tag.

“Item Approved” means the item is WIC approved. Check your benefit balance to make sure you have benefits to get the item this month.

Not Approved” means the item is not approved and cannot be purchased with your WIC benefits.

“Item Approved” in yellow means that the item might be approved depending on the store and your WIC benefits. Be sure to check your benefit summary for approved items.
